

4Spaces redefines fabric and wallcovering, infusing them with timeless character while breaking free from industry clichés and superficial trends. Our fabrics boast elegant simplicity yet offer an irresistibly tactile experience, radiating individual personality.

Guided by an impeccable sense of contemporary spirit and innovative aesthetics, the 4Spaces design team, led by creative director Michele Rondelli, redefines avant-garde fabrics that transcend eras, captivating discerning clients, designers, and architects.

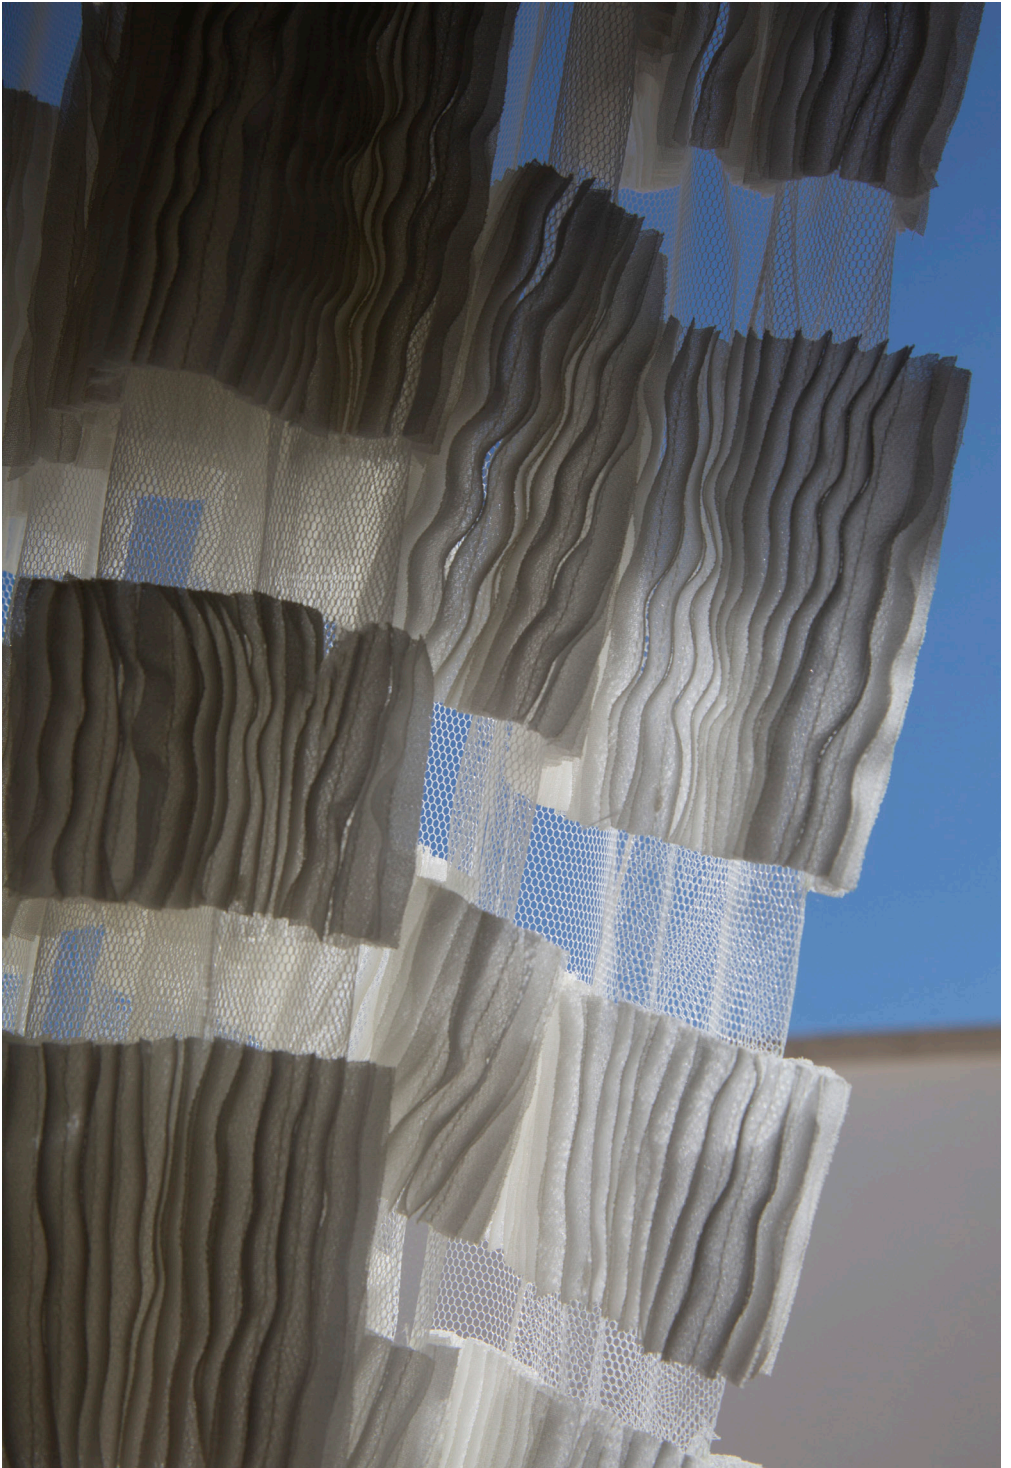

We produce within a 500 kilometer radius while adhering to ethical and social standards, all under rigorous sustainability controls.

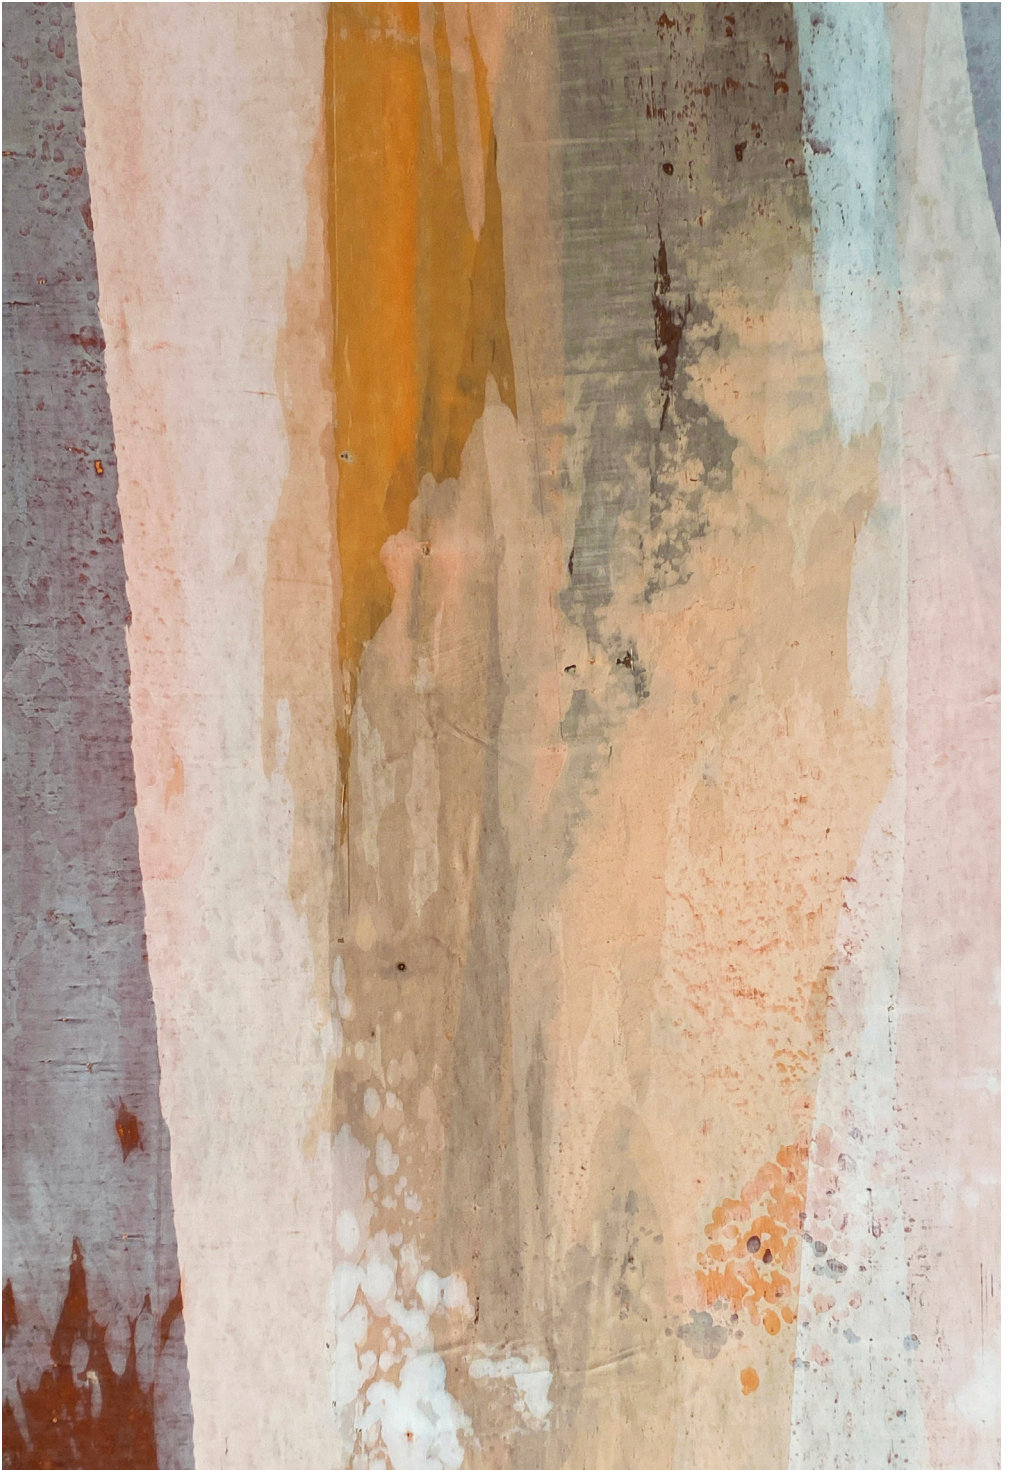

We draw inspiration, engage in creative design, and foster a deep understanding of artists' subtle approaches.
