

THE
NOMAD
COLLECTION

Creative director Michele Rondelli and designer Shoson Thatawakorn explore the theme of nomadism and artisanry in their debut collection for Atelier 4Spaces.

The collaboration began when the two met a while ago after Shoson's most recent artwork was exhibited and awarded at an international art show. They later visited Shoson's studio in Bangkok and, after hours of looking at techniques, products and raw materials, they developed a vague outline for their collection. The theme „Nomadism meets Artisanry“ was set.

With this captivating story behind the scene, this creative wall covering collection explores the spirit of the time and denotes the intellectual and cultural climate of sensible interiors linked to a classy worldview, outstanding sense of good taste, profound collective consciousness and distinctive inspiration.
